

I'm am writing in support of the DO NOT CALL LIST. Since this list has been implemented the number of unsolicited phone calls I receive has been reduced from several per day to less than one per week. This has increased the amount of quality family time we are able to have and also reduced the frustration as unsolicited phone calls harrassed us in the one place where we should feel safe from harrassment- our homes. Reducing the protection the DO NOT CALL LIST provides would be a great disappointment to those of us who have greatly enjoyed the freedom from unsolicited phone calls that used to disrupt our lives in our homes.
